

Nebo School District Board of Education

Administrative Procedure EBB-P1

ACCIDENT PREVENTION IN MOVING PIANOS

In view of recent accidents within our district, every employee should analyze common school practices, some perhaps very dangerous, which have been going on for years, and take proper preventive measures to insure safety at all times in all situations.

Students are not to be used in moving heavy, dangerous furniture or equipment. Only employees may move pianos not equipped with moving dollies. Pianos equipped with approved type dollies may be moved by students under adult supervision.

Principals should analyze their equipment budgets to see if they can purchase piano dollies for all pianos which are moved periodically.

Safety must become an attitude.

. . . . THINK SAFETY
