1. PURPOSE AND PHILOSOPHY

Many Nebo School District students and employees participate in a wide variety of activities during the summer and other out-of-season times during the year. Some of these activities are related to extra-curricular, co-curricular, and curricular activities which are sponsored by the District during the regular school year. However, many of these activities are not sponsored by the District. This policy provides standards, guidelines, and procedures to determine whether or not certain summer or out-of-season activities are sponsored by the District.

2. ACTIVITIES SPONSORED BY NEBO SCHOOL DISTRICT

- 2.1 District Sponsored Activities: Activities that are “sponsored” by the District means that the activity is organized, conducted, and supervised under the control of the District. Such sponsored activities may involve the use of: (a) school facilities; (b) District transportation (vehicles and buses); (c) District funds; (d) uniforms and equipment; and (e) District personnel and students. Sponsored activities may also involve financial responsibilities in regards to student fees and fee waivers. All sponsored activities are under the responsibility, risk, and liability of the District.
- 2.2 School Organizations and Programs: Summer or other out-of-season activities which are sponsored by the District generally involve current and/or prospective students participating in an authorized school organization or program, such as school athletic teams, school classes or groups, student curricular clubs, student government and leadership organizations. Such activities would include teams and groups associated with the Utah High School Activities Association (UHSAA).
- 2.3 UHSAA Team Practices: Summer or out-of-season athletic team practices must be in compliance with the rules and regulations of the UHSAA, and may be approved and sponsored by the District if the following conditions are satisfied: (a) the team practices are approved by the high school principal, or his/her designee; (b) the team practices are approved by the Director of Secondary Education; (c) the team practices are under the direction of the head high school coach or advisor; (d) the students are not required to pay any participation fees; and (e) the team practices are limited in participation to those students who are currently

enrolled at the high school and/or are 9-12 grade students who live in the high school catchment area. (See also Nebo School District Policy #KA, Facility Use).

- 2.4** Community Education Programs: Nebo School District Community Education classes, clinics, and camps are sponsored by the District and properly authorized if the following conditions are satisfied: (a) the classes, clinics, and camps are approved by the District’s Coordinator of Community and School Services; (b) the classes, clinics, and camps are designated and scheduled as Community Education programs or activities; (c) the classes, clinics, and camps are scheduled at designated District school buildings or facilities; (d) the classes, clinics, and camps are non-exclusive as to the participants; (e) instruction for the classes, clinics, and camps focuses on enhancing learning, skill building, and/or enrichment, and are not primarily based upon competitive play or tournaments; (f) a participation fee may be charged; and (g) compensation for instructors and teaching assistants are based upon established reasonable compensation standards for Community Education programs and activities. (See also Nebo School District Policy #KAA, Community Education).

- 2.6** District Approved Activities: All District-sponsored summer or out-of-season activities: (a) must be of the type and nature described in this Section 2; (b) must directly involve current and/or prospective students participating in authorized school organizations or programs; and (c) must be integral to the operation of an authorized school organization or program. In addition, all District-sponsored summer or out-of-season activities as described above must be approved by school and District administration through completion of either the Nebo School District Summer / Out of Season Activity Approval Form (if the activity is not an overnight or out-of-state activity), or the Student Educational Travel Application under Nebo School District Policy IICA, Student Educational Travel, (if the activity is an overnight or out-of-state activity). Each form must be completed and submitted to the Coordinator of School Services no later than fifteen (15) days before the activity.
